

# NATHAN PORTER

- Nathan Porter offers more than 15 years of experience in renewable energy and storage, including 14 years with Cobalt Power Systems.
- He holds an A.S. degree in Electrical Technology and specializes in designing custom solar and battery systems for architects, contractors, and homeowners.
- As a Senior System Designer, Nathan focuses on delivering high-performance, long-lasting energy solutions tailored to each client's unique needs.
- He places strong emphasis on product quality, system reliability, and long-term value.
- Known for his technical precision and client dedication, he brings deep expertise to every project.
- When not working, Nathan enjoys traveling and spending time outdoors with his family.
